To Whom It May Concern:

Re: Material Content of Trudell Medical International Products

This letter is to certify that the following product lines offered for sale by Trudell Medical International contain no latex rubber components, nor are any of the materials used in their manufacturing processes derived from latex rubber.

- **AeroChamber Plus™** VHC
- **TruZone™** Peak Flow Meter
- **AeroChamber™** HCMV
- **AeroTrach™** VHC
- **AeroPEP™** VHC
- **AeroChamber MAX™** VHC

The materials used in the manufacture of the devices listed are compliant with the requirements of the ISO 10993-1 series of Technical Standards on the Biological Evaluation of Medical Devices.

Should you have any additional questions or concerns with respect to this product please feel free to contact me at your earliest convenience.

Kind Regards,

Darryl Fischer, CQM
Manager, Regulatory Affairs
